General Manager, Economist and MBA with more than 20 years of experience in agro-industrial and financial services companies where I have managed to improve internal management, increase EBITDA, and open local and international markets in Latin America. I have worked with multidisciplinary teams of up to 1,400 people leading complex projects across the region, being the most important the increase in sales in CHEMIE S.A (70% in 9 years), as well as the backoffice migrations from HSBC Branches in LATAM into Mexico. My professional goal is to work on new or challenging projects and open internal and external markets. English language proficiency.
